

Technical Bulletin – Advantage Capped Composite Decking

Product	NexGEN Advantage Composite Decking
Report	New Product – Capped Composite Decking
Description	NexGEN Advantage Acorn and Aspen is a giant step forward in capped composite decking. Capped on three sides with innovative PermaTech surface technology, these boards can withstand daily wear and tear and UV rays that other deck boards simply cannot. Available in two multi-chromatic colours and priced to fit almost any budget.
Dimensions	<div style="display: flex; align-items: center;">  <div style="margin-left: 20px;"> <p>20 mm x 127 mm Available in 3.66m and 4.90m lengths</p> <p>Designed for use with hidden deck fasteners. Provides a smooth, fastener-free surface.</p> </div> </div>
Features	<p>Resistant to: Staining, fading, termites, warping, rotting, cracking, splintering and decay No need to treat, paint or stain</p> <p>There are two different grain patterns for a more natural look. Both the grain patterns and the colour streaking repeat every 21 metres.</p>
