

## Technical Bulletin – Premium Double Sided Capped Composite

<b>Product</b>	<b>NexGEN Premium Composite Decking</b>
<b>Report</b>	<b>Double Sided Capped Composite Decking Boards</b>
<b>Description</b>	NexGEN Double Sided Capped Composite is the board for those who won't compromise. NexGEN Double Sided deck boards are capped (or covered) on all four sides with a patent-pending PermaTech® surface material. Four-side capping increases durability, enhances stain and fade resistance, and ensures a more polished appearance all around. Plus, NexGEN Double sided boards feature two different wood grain patterns on the top and bottom for more design options and less on-the-job material waste.
<b>Dimensions</b>	<div style="display: flex; align-items: center;">  <div> <p>24 mm x 137 mm Available in 3.66m and 4.90m lengths</p> <p>Designed for use with hidden deck fasteners. Provides a smooth, fastener-free surface.</p> </div> </div>
<b>Features</b>	<p>Resistant to: Staining, fading, termites, warping, rotting, cracking, splintering and decay No need to treat, paint or stain</p> <p>There are four different grain patterns for a more natural look. Both the grain patterns and the colour streaking repeat every 21 metres.</p> <p>Available in 2 colours: Rosewood and Ipe (pronounced ee-pay)</p>
<b>Technical</b>	<p>Board Profile Dimensions: 137mm x 24mm Board Lengths: 3.66 and 4.90 metres Material: Premium composite core with patent-pending PermaTech surface Terrace Joist Spacing: 450mm on centre</p>
